FRIDAY, APRIL 25, 1924

Sparks Chosen Chairman of Board of City Trustees: Mitchell Resigns at Once

The first meeting of the new board of trustees set a record for length, which regular attendants hope will not be a precedent. Some of the meeting, however, was taken up with routine pertaining to getting the new regime in working order.

Not a ripple appeared to indicate anything out of the ordinary until the last item of business before adjournment when City Clerk Dietz read the letter of resignation of former Mayor Robert Mitchell as a member of the board, which was as follows:

April 24, 1924.

To the Board of Trustees, City of Sierra Madre, California:

Gentlemen: I have had the honor of being twice elected as a member of the Board of Trustees of our City, and I have served for a period of six years, during all of which I have presided over the deliberations of the Board. I venture to say that neither the interests of the City, nor its honor, nor its prestige have suffered during my incumbency of the office.

By virtue of the fact that I am the oldest member of the Board in point of service, I am clearly entitled by the rules of courtesy and custom to the office of President of the Board. That you have seen fit to depart from those rules, which usually obtain among gentlemen, is a matter of great surprise to me. I know, of course, that your action is the result of the ill will which Trustee Topping bears towards me, and that Trustees Sparks and Porter have allowed themselves to become the tools of his petty spite.

I had hoped to serve the people of Sierra Madre as a trustee during the period for which I had been elected, but my sense of self respect will not permit me to serve on a Board dominated and controlled by Mr. Topping.

I, therefore, with much regret, hereby resign as a member of the Board of Trustees to take effect immediately.

Yours respectfully,

ROBERT MITCHELL.

Trustee Porter promptly moved that the resignation be accepted and the letter spread verbatim upon the minutes of the board, which was adopted.

Mr. Porter then offered a resolution expressing it as the feeling of the board that the wording of the letter afforded ample justification for the previous action of the board in making a change in the chairmanship.

Trustee Karicofe said he could see no reason for entering into the matter further as he thought it would only serve to prolong controversy and ill feeling. He thought it better to forget it.

Attorney Baker advised against entering any such expression of opinion in the records of the board and Trustee Porter withdrew his resolution. Mr. Baker said any trustee who cared to do so would be justified in making any personal statement he desired in defense or explanation.

Trustee Porter said he thought any trustee ought to have the right to vote as he pleased on the chairmanship without any explanation of his vote, but wanted to say that he had not been influenced in any way by Trustee Topping. Further, he said that he had only voted once on the chairmanship.

Chairman Sparks offered a similar disclaimer of influence by Mr. Topping.

Trustee Topping said: "Any talk about the board being controlled by one man is absurd. There is not a man on the board but is able to make up his mind for himself."

Two Nominees

The board then took up the matter of a trustee for the vacant post. Letters from the directors of the Chamber of Commerce and Civic association endorsing W. E. Doty for the position were read by Clerk Dietz. The name of E. E. Bacon was

also suggested by Trustee Porter as a possibility. He said, however, he had high regard for both men and would be satisfied with either. No vote was taken, the matter being put over for action at the adjourned meeting to be held next Thursday night.

Protest Denied

The protest of Henry Schaser against improvement work on Alegria avenue west of Sunnyside was denied as being insufficient and not in conformity with the state law.

Laurel-Merrill Contract

Bids were opened on the improvement of Laurel avenue from Baldwin to Mountain Trail, and Merrill avenue from Laurel to Highland. The bids were as follows:

H. H. Steinberger, paving, 12 3/4 sq. ft.; curb, 57c lin. ft.; sidewalk, 20c sq. ft.; gutter, 24c sq. ft.
Tracy & Coombs: Paving 11 3/4 sq. ft.; curb, 60c lin. ft.; sidewalk, 20c sq. ft.; gutter, 26c sq. ft.

O. U. Miracle: Paving, 15c sq. ft.; curb, 50c lin. ft.; sidewalk, 20c sq. ft.; gutter, 22c sq. ft.

The bids were referred to Engineer Gierlich for checking, but on the face of them that of Tracy & Coombs appears to be somewhat the lowest, the total amount of the contract being a little less than \$11,000.

A letter was received from Supervisor Woodley offering to confer with the board regarding mutual interests in the water resources of Sierra Madre and the Cook-Woodley subdivision in Arcadia.

Request from Dennis Stovall, scoutmaster, for the use of the community house in the park by the older Boy Scouts on Friday nights was referred to the park commission. The members of the latter body being present, gave their consent, beginning May 2.

Rol King appeared to request co-operation of the board in securing an outlet for the paved street which is improving through his Las Rocas tract. He desires to build a 20-foot bridge over the Little Santa Anita and the board agreed to aid in securing addition of five feet to the right of way from A. N. Carter.

The park commission reported the community house would be ready for public use on May 1, and were given authority to secure a caretaker for the periods when the regular park caretaker is not on duty.

The ordinance providing for the sale of the water bonds was adopted. An ordinance providing for proper park rules was introduced.

Regular Committees

Chairman Sparks announced standing committees as follows, vacancies to be filled by the trustee to be appointed:

Finance: J. D. Sparks, E. H. Porter.

Streets and Police: S. M. Karicofe, E. H. Porter, Earl Topping.

Water: Earl Topping, S. M. Karicofe, J. D. Sparks.

Ordinance: E. H. Porter, S. M. Karicofe.

It was voted to notify the Pacific Electric Railway that the right of way on Central avenue must be put in proper condition.

VOTE CANVASS MONDAY NIGHT

Election of Trustee J. D. Sparks as chairman of the board of city trustees and resignation of former chairman Robert Mitchell as a trustee marked the meeting of the board Monday night when the returns of the recent city election were officially canvassed.

Following the certification of the returns, Trustees Karicofe and Topping were sworn in for the four year term, Trustee Porter for the two-year term, City Clerk Dietz and Treasurer Pegler for four years each.

When the new board was called to order by the clerk an informal ballot for chairman was announced. Trustee Topping nominated Trustee (Continued on Page Eight)

SCHOOL SHOWS FINE WORKING OF FIRE DRILL

One minute and fifteen seconds was the time required to get all the pupils out of the public school buildings on Wednesday when the fire alarm sounded. There was no fire. But Marshal A. M. Udell, Fire Chief Ralph Odwarker and Secretary Berg of the Chamber of Commerce visited the school in the interest of Fire Prevention Week.

To show how well the electric alarm system works and how well the children are drilled, Miss Steinberger, the principal, staged a demonstration without notice to the pupils or teachers. The visitors were stationed at various points to time the drill. Some rooms were emptied in 45 seconds. Others took a little longer, but there was absolutely no confusion or disorder.

Keyes Tells Why Crime Is On Increase

"The most amazing thing about crime in recent years," declared District Attorney Asa Keyes at the Sierra Madre Chamber of Commerce Tuesday luncheon, "is the rate of increase among the young. The average age of inmates of San Quentin prison has dropped from 28 to 24 years within a period of five years." Failure of the American home to provide proper training, disrespect for law engendered by the attitude and practice of parents, over-stimulation of the craving for excitement by jazzy modern life and sensational newspapers are among the things blamed by Mr. Keyes for the alarming development. But chief cause was directed at the failure of parents to instill by precept and example a proper regard for law and order.

Criminals are organized for their work, just as this Chamber of Commerce is organized, with directing heads the active alliance with similar organizations engaged in other branches of crime, said Mr. Keyes. The first duty of society is the protection of life and property. Hence it is necessary to organize to combat and prevent crime.

One of the things that has made crime popular, in Mr. Keyes' opinion, has been the difficulty of securing convictions, due to various causes. Among these was the customary delay which formerly made trial of a criminal impossible within three months of commission of the crime. Through some changes of procedure, better organization of prosecuting forces and criminal courts it is now possible to secure a trial within 30 days in any of the six criminal departments of the superior court. Better law enforcement will tend to reduce crime very effectively.

Individual responsibility comes to the citizen with the call to jury duty. At present one of the most hopeful signs, in Mr. Keyes' opinion, is the high standard of jury service now being rendered. It is a duty which the citizen owes to himself and the public, even at some sacrifice.

Alvin Langley presided at the luncheon and introduced Mr. Keyes, who spoke of the pleasure he felt at meeting his old time friend, J. H. Wright. He said their friendship went back to the days when Mr. Wright was cutting brush to make a clearing for the settlement of Sierra Madre.

Food Sale Saturday at Welscher's Store

The ladies of St. Rita's Shrine will have a cooked food sale at Welscher's store Saturday, April 26. Cakes, pies, salads, baked beans, and Italian macaroni, etc., may be procured.

For the Sunday after Easter the full musical service will be repeated at the 11:00 a. m. service and the preacher at that time will be the Rev'd. Nassau Stephens. There will be no early celebration.

DR. TATE WILL RETURN TODAY FROM AVALON

Dr. William A. Tate, minister of the Congregational church, is expected to return today from Avalon, where he has been spending the week. He has been attending the annual "retreat" of Congregational ministers of Southern California which is held during the week after Easter. The custom was started by Dr. James M. Campbell when he was minister of the local church, and fostered during his pastorate at Avalon.

Next Sunday the usual services will be held in the Congregational church. At the evening service it had been expected the choir of the Church of the Ascension would furnish a musical program. Owing to the illness of Mrs. Randolph Wood, soprano, and the unexpected absence of Mr. Howard Lieben, bass, it has been found necessary to postpone the program until later.

Support of Coolidge Is Aim of Club

Today marks the firing of the first gun of the presidential campaign in Sierra Madre. According to announcement from Coolidge headquarters, Sierra Madre will be visited by a flying squadron of spell binders at 12:30 o'clock. Speakers announced are Dr. John C. Copeland, Dr. Christopher Gleaves, E. D. Martindale, James S. Howie and E. D. Reiter.

Tonight the Coolidge cohorts are invited to gather in the Firemen's Club rooms at 8 o'clock. A Coolidge Formation club is to be organized and plans made to get out the Coolidge vote at the presidential primaries on May 6.

NEW ORGAN IS BIG ADDITION TO WISTARIA

Numerous approving comments are heard for the improvement policy which caused Manager Brown of the Wistaria to install the new Photo-play organ. The instrument was used first at the Tuesday night program and revealed a surprisingly sweet tone. In addition to a fine range of reeds and pipes, it has a number of string and trap combinations, as well as piano built into the case. The organ is placed in a pit in front of the stage so the operator can watch the screen and follow the picture with the musical synopsis.

A new Wednesday night feature will be tried out next week, with the giving away of a kodak absolutely free to some theatre patron. The kodak is given by Woodson Jones and other merchants have agreed to furnish articles for succeeding Wednesday nights.

DECORATIONS FOR MASONIC ANNUAL BALL

With a corps of willing workers under the direction of Frank Monroe Smith, the Woman's club house is being transformed into a place of beauty for the fourth annual ball of the Masonic Lodge, which takes place tomorrow night. When Mr. Smith undertakes a decorative scheme something worth while is sure to result, so that this event seems sure to measure up to those which have preceded it. Acceptances to the lodge's invitations indicate a large attendance. The Los Angeles orchestra which made such a hit on the occasion of the annual installation, will furnish the music.

TENNIS MEET IS DELAYED

Cool weather has interfered with the finish work on the surfacing of the park tennis courts so that they will not be ready in time for the tennis tourney which was to have started tomorrow. The meet will therefore be postponed, probably for one week.

Membership of C. of C. Is Growing Fast

The board of directors of the Sierra Madre Chamber of Commerce met for the regular monthly meeting Tuesday night and passed a resolution calling on the school trustees to hold another bond election as soon as possible. The directors took this action because it has been generally felt that the recent election did not express the real sentiment of the people.

The unfortunate conditions at the polls resulting from the arrangements made by the county office for handling four tickets at one election caused many intending voters to give up all attempt at voting. An election with but one issue will, in the opinion of the directors of the chamber, result in a clear expression of the will of the people in regard to additional school facilities.

Mr. Mitchell, the newly elected director to the board of directors of the San Gabriel Valley Association of Chambers of Commerce, reported on the meeting he had attended in Los Angeles the previous day and urged that this organization take the same action as the other chambers in the association, namely, to raise \$100.00 towards the publicity campaign in support of the \$35,000,000 bond issue which is to be voted on May 6. The members present agreed unanimously that this sum should be raised immediately and pledged their individual efforts towards the work.

Secretary Berg announced May 5 as the date selected for the opening of the membership campaign which will be conducted with the assistance of members of the Los Angeles Chamber of Commerce. On that date a public dinner will be held at which some prominent men from Los Angeles will be the principal speakers.

The secretary rendered a financial report which was most satisfactory to the directors and his reading of the names of fifteen citizens who have made application to join the organization within the past month was greeted with applause and the applications were approved. The names of the new members follow:

James Plankenship, grocer, Sierra Madre Canyon Park.

Dr. Gilbert S. Bovard, physician, 8 N. Baldwin avenue.

Mrs. Laura M. Cline, Sierra Madre Canyon Park.

J. Draman, shoe repairing, 22 N. Baldwin avenue.

B. R. Elkin, feed and fuel, 43 N. Baldwin avenue.

C. L. Hoover, Sierra Madre Canyon Park.

F. L. Lovell, Central Garage, 2 W. Central avenue.

A. C. Mueller, 50 E. Alegria.

Dr. Harry J. Powers, physician, E. Central avenue.

A. P. Pratt, 258 N. Mt. Trail Ave. Richards Bakery 45 N. Baldwin.

Thomas Solury, grocer, 20 North Baldwin avenue.

Claude Vedder, electrician, 62 Windsor Lane.

R. J. Walsworth, feed and fuel, 97 E. Montecito.

Randolph Wood, 255 N. Hermosa Ave.

GREAT LECTURE TO BE GIVEN AT ST. RITA'S

"Home, Sweet Home," is the subject of an inspiring lecture to be delivered by Very Rev. Eugene Creegan, Provincial of the Passionist Fathers, at Saint Rita's auditorium, Sierra Madre, Sunday afternoon, May 4, at 3:00 o'clock.

The reverend lecturer, who has the reputation of being a fluent and eloquent speaker, will be introduced by the Hon. Joseph Scott, the noted attorney and orator of Los Angeles. Select musical numbers will be rendered on the occasion. Admission tickets may be secured at Woodson Jones' store. Remember and kindly reserve the date, May 4.

Mrs. William Walker and family, of North Baldwin, are leaving Sunday for Portland, Ore., where they will spend the summer visiting friends and relatives.

Camp Owners Seek Way to Avoid Losses

Facing disaster as a result of the closing of the mountain recreation areas to the public during the foot and mouth disease quarantine, the camp owners and others concerned are trying to figure some way to meet the situation.

Owners of mountain camps, parking spaces, refreshment places and trail stables met at the Sierra Madre Cafe Wednesday for lunch. The territory as far east as Camp Baldy was represented. In addition to investigation of the quarantine situation, they also had in view better acquaintance and cooperation on other matters of interest.

The new association decided to carry on a campaign in Southern California for the purpose of interesting the people in visiting the mountain resorts. This work would be accomplished following the lifting of the embargo from the mountain district.

Deer Discussed

The question of the deer, which caused the closing of the mountain district, was taken up and owners were of the opinion that inasmuch as the herds are farther back in the mountains the danger is at a minimum. Some of those present declared no evidence of the deer being infected had come to light and the question arose as to whether these animals are subject to the disease. No cases of infections in the mountains had been reported, they said, and most of the new outbreaks were confined to areas where the disease had gained a foothold.

The resort owners manifested a desire to fully co-operate with the authorities and do all possible in exterminating the disease, but owing to the rules, they said, the best step would be to empower a committee to investigate and have these rules straightened out.

Officers Elected

Earl V. Thompson, of Camp Rincon, was elected president of the group and T. L. Syvertson, of Teddy's Outpost in the Arroyo, was chosen secretary. The organization committee comprises Lloyd B. Austin, of Switzerland, chairman; William Murphy, of Hoegee's; John Opid of Opid's Camp, and Frank Headlee of Coldbrooks. The committee to look into the plague situation is composed of Herbert McCulloch, of Camp Baldy, chairman; W. Hoegee, of Mount Wilson stables; W. E. Corey, of Mount Wilson hotel, and Mr. Priest, of Alpine Tavern. Others present were R. B. Hosford, Fern Lodge; E. J. Killian, Sturtevant's; J. R. Phillips, Oak Wynde; O. L. Roberts, Joe Clark, of Camp Roberts and Mr. Ralston of Opid's.

Next Tuesday the group will gather for luncheon at the Sierra Madre Cafe and afterward proceed to the residence of Mr. Murphy, where the committee reports will be offered and subsequent action taken. More than 50,000 persons visit the nearby mountains monthly and from this number the different resorts draw their patronage which now is prevented because of the plague embargo.

FRATERNAL NOTES

Masonic Lodge

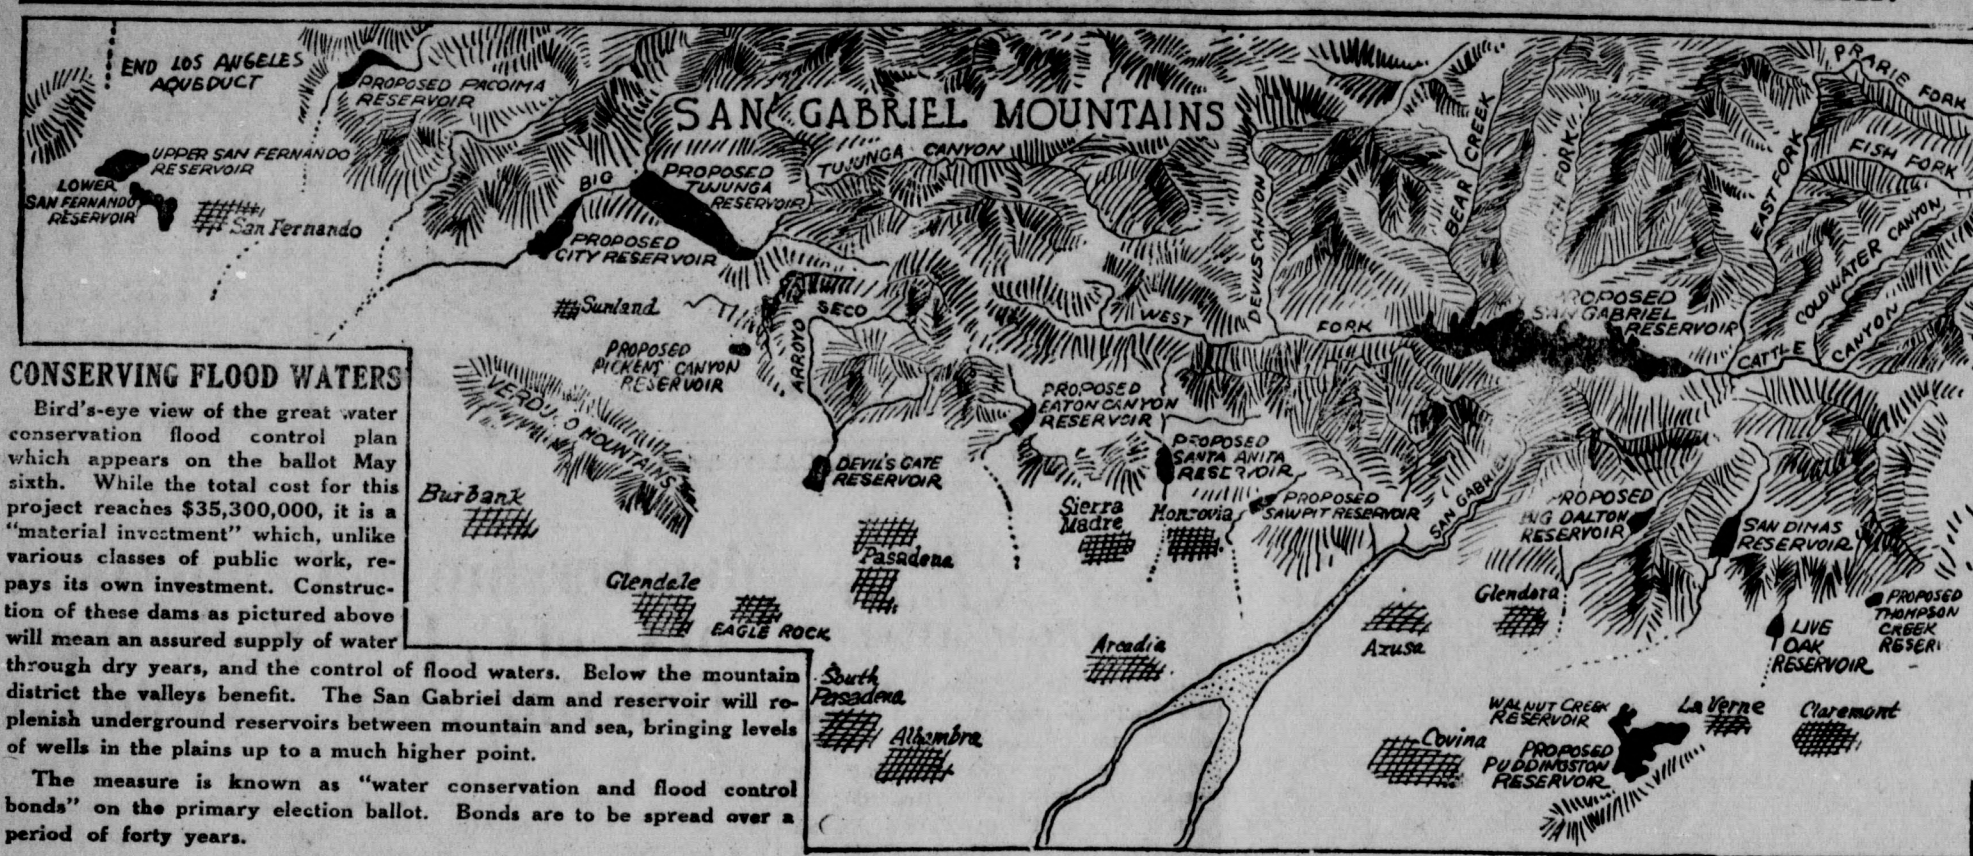

Next Tuesday night the degree of Master Mason will be conferred by Sierra Madre Lodge No. 408, F. & A. M. This is the regular date for the monthly social night, but will be devoted to degree work because of the annual ball taking place on Saturday night.

Eastern Star

Members and visitors to the number of 80 attended the social evening of the Eastern Star Chapter last Monday. Mah Jongg and cards occupied the evening and delicious doughnuts and coffee were served.

Mrs. P. M. Cox of 93 E. Laurel had as dinner guests Thursday, Dr. and Mrs. Rose Griswold, accompanied by their daughter Margaret Jane, and their sons Ross, Jr., and John, of Richfield, Ill.; Mrs. George Bennett of Riverside and Mr. and Mrs. T. J. Burns.

DETAIL OF LOS ANGELES COUNTY'S GREAT WATER CONSERVATION-CONTROL PLAN

CONSERVING FLOOD WATERS

Bird's-eye view of the great water conservation flood control plan which appears on the ballot May sixth. While the total cost for this project reaches \$35,300,000, it is a "material investment" which, unlike various classes of public work, repays its own investment. Construction of these dams as pictured above will mean an assured supply of water through dry years, and the control of flood waters. Below the mountain district the valleys benefit. The San Gabriel dam and reservoir will replenish underground reservoirs between mountain and sea, bringing levels of wells in the plains up to a much higher point.

The measure is known as "water conservation and flood control bonds" on the primary election ballot. Bonds are to be spread over a period of forty years.

Singing Fish.

The sapo fish, which lives under stones near the shore, is often called the singing fish on account of a peculiar humming noise that is made by its air bladder. Sapo is a South American name for various toadfishes, especially for the singing variety which is found along the California coast.

A Coincidence.

Upon looking for his shoes outside his bedroom door in a hotel, a guest discovered one black and one tan shoe. He called the porter's attention to the error. The porter scratched his head in bewilderment. "Well! That's the second time that mistake's happened this morning!"

WISTARIA IS DRAWING BIG CROWDS NIGHTLY

Richard Talmadge is achieving a reputation as a stunt and comedy actor which promises to rival that of Douglas Fairbanks. If you doubt it, just go to the Wistaria Saturday or Monday night and see his series of wild adventures in "Wildcat Jordan." The action of the story takes place on a western ranch and in New York city, furnishing plenty of variety and excitement.

"From the Ground Up" comes Tuesday and Wednesday. Tom Moore takes the leading part in this Rupert Hughes story of Terrance Giluley, who started on the road to fortune and a wife with a mouth organ, a dollar bill and a bit of the luck of the Irish. The Thursday night attraction will be "When East Comes West," a lively action picture, with two comedies added for good measure.

"Chamber of Commerce Night"—on Friday night—promises to be one of the biggest nights in the history of the Wistaria. Through the public spirited cooperation of Mr. and Mrs. Brown the theater is placed at the disposal of the Chamber of Commerce, at a nominal expense. The film will be "A Lady of Quality," and there will be only one showing, beginning at 7:30. The film, in which Virginia Valli and Milton Sills are the stars, is one of the biggest and best ever secured for Sierra Madre.

In addition there will be a special musical program. Tickets will be

four
MORE
cigarettes
111
"ONE ELEVEN"
24 for 15¢

75 cents and the profit will go to the Chamber of Commerce boulevard electric sign fund.

The passing of Lent and the added attraction of the new organ at the theater have resulted to increase the crowds every night. Mr. Brown greatly appreciates the patronage of those who have stood by and boosted the enterprise, and promises to continue the utmost in quality that can be justified by the returns.

UNIVERSITY MAIL COURSE ABOUT AUTOS

Do you know what is going on under the hood of your automobile? If not, or if you have only a hazy idea of how the various parts operate then take the correspondence course on The Gasoline Automobile which is conducted by the University of California Extension Division.

With the advent of spring and the long week-end trips which are the usual result many owners are wondering whether the old bus will hit on all six for another strenuous season. For the man who works on his own car the University course is a veritable mine of information. It is not only based on one of the latest and most complete books on the automobile but additional material in mimeographed form is sent out from 301 California Hall in Berkeley, the home of the Extension Division, a bureau of automobile information being maintained there for the benefit of students who have enrolled.

In seventeen assignments the course thoroughly covers such topics as the automobile engine, automatic power plants, fuel and carbureting systems, engine lubrications and cooling, principles of electricity and its application to starting, lighting and ignition systems, clutches, transmissions and rear axles, and differentials. The assignments are of equal value to the owner of a Ford or a Cadillac, or to the owner of a Chevrolet or a Buick. One lesson deals with common automobile troubles and their remedies. In another, the University is cooperating with the State Motor Vehicle Department in explanations and interpretations of the new State Motor Vehicle Act.

Complete information regarding the automobile course may be obtained by writing to the University of California Extension Division at Berkeley.

Zoro Women Supreme, but Ugly. The Zoro women of India are supreme. They woo the men, control the affairs of the home and the nation, transmit property, and leave the men little or nothing to do. The result is, says an eminent scientist, who has investigated the race, that they are the ugliest women on earth.

Lots of Futilities. Among the other futilities, circulating a petition often has to be included.

CHRISTMAS SEALS PROVIDE FUNDS FOR FINE WORK

What becomes of the money you paid for Christmas seals sold by the County Tuberculosis Society last winter? The following letter from Mrs. M. Berhman, secretary of the society, tells a little about what is accomplished by the society of which Robert Mitchell of Sierra Madre is vice president:

Though the County Tuberculosis association has just been organized one year, it has already accomplished some splendid things in its winning fight against the so-called "White Plague." A central tuberculosis clinic, connected with the Boyle Ave. general clinic and affiliated with the White Memorial Hospital, has been established.

All Races Treated

Dr. Gladys Patrie Shohovitch, a well known authority on tuberculosis, having had much experience in France and Jugoslavia, is chief clinician and is devoting much time to the examination and instruction of the many patients who flock to the clinic doors for assistance. All nationalities and religions are accepted. So many have applied for examination that the chief nurse must keep a long waiting list. The patients are coming into this clinic from all over the county though it is to be hoped that similar clinics may be permanently established in other communities where particularly needed.

One very interesting case visited by the clinic nurse, showing the splendid constructive work being done, lives in Winter Gardens. Here she found a family of ten living in two small tents placed upon the bare ground. The mother is in the County hospital afflicted with advanced tuberculosis. The father, a hard-working man but with no training, has been trying to feed the nine hungry and malnourished children and make payments on a lot where he hopes some day to build a home.

Saving a Family

Because the father has never before needed to accept help, he looked with suspicion upon the social service worker and clinic nurse. But before long they helped him solve his problems and proved to him they were his friends. Now through their efforts the man has secured a more remunerative position, the local Chamber of Commerce has pledged to assist him build a home on his lot; three quarts of milk are being given them at cost each day; the sixteen year old daughter, who is acting as mother for the flock is being taught by the nurse how to properly take care of the family so they will not develop the disease and altogether a much happier atmosphere has gathered in this family circle.

Dozens of such cases could be related. The purpose of the association, you see, is to teach tuberculosis prevention in the homes and there to bring up the standard of living to the point where the infected case will not be dangerous and the others not infected will acquire a strong bodily resistance against possible infection.

TEMPLE PEOPLE WANT ROAD TO SIERRA MADRE

Opening of Sierra Madre avenue through from the Foothill boulevard to Huntington Drive and the Monrovia car line is the objective of prominent citizens of the new town of Temple. Secretary Roy Teeters of the Temple Chamber of Commerce, Dr. A. F. Peterson, representing the Temple Townsite company, and Duke Coughran of the firm of Marsh & Coughran, tract agents, visited Sierra Madre recently and are anxious to enlist co-operation from this end of the line.

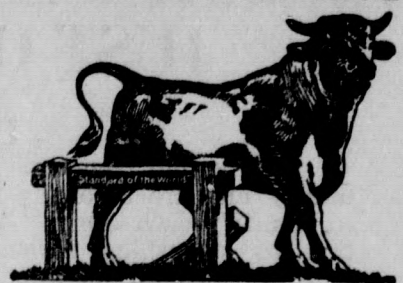

At the south end of the proposed extension it is the hope of Temple people to make a slight swing in the road so as to connect with Sunset avenue at its conjunction with Huntington Drive. This would give a direct thoroughfare from the mountains, along the west border of Sierra Madre, and well into the San Gabriel valley.

The proposed road would be of material benefit to Sierra Madre as well as to the valley folk and deserves the assistance of every local agency. The right of way is already open, though in poor condition, to a point just south of Monrovia pumping plant. Only about half a mile remains to be opened to bring it to the Foothill boulevard.

A Queer Creature.

One of the queerest creatures imaginable is the midwife toad. The female lays her eggs in long streamers, which the male collects and wraps around his legs. He carries them about in this way until they hatch into tadpoles.

TO TELL ANY PERSON'S AGE

By L. Lansberg

To tell a person's age is easy by employing the following mathematical trick: Tell the person who wants his or her age divined to multiply the date of the birthday by 2, then to add 4, the result to multiply by 50; add to the product the number of the month of birth; again multiply by 100, then subtract from the product the age in the preceding year, and finally, to subtract 19,877. The final result, which you ask to be told, will indicate the exact date, month and year of the person's birth. Suppose the person was born on August 15, 1863. The operation will then be as follows:

15 times 2 equals 30.
30 plus 4 equals 34.
34 times 50 equals 1700.
1700 plus 8 (Aug.) equals 1708.
1708 times 100 equals 170800.
170800 minus 60 equals 170740.
170740 minus 19877 equals 15-08-63.

The number 19877 is for the year 1924. If, however, the person has apparently been born in the twentieth century (1900, 1901, etc.) the number to be subtracted is 19977.

Another method: Ask the person to multiply the number of the birth month by 2, add 5 and then multiply by 50. To the product add the age; subtract 365, add 115, and then ask for the result. The tenths and units will indicate the age, hundreds the month of birth. Suppose the result is 526, then the person's age is 26, and she was born in the fifth month, e. g., May.

Some Typewriter.

A Swiss inventor claims to have produced a typewriter which will automatically type words as they are dictated to it by the human voice.

Milk in Los Angeles.

Los Angeles has the second largest per capita milk consumption of any city in the United States. Boston is the first city in per capita consumption.

—because the stroke of the clapper causes metal vibrations which start air waves. Due to the bell's round, hollow shape, these air waves strike the ear as a ringing sound.

Puretest No. 6 Disinfectant
"rings the bell" every time, as a foe of germs, insects and dirt.

No. 6 is ten times more powerful than carbolic acid—and ten times as safe. Cleanses wherever it touches. Use it where you want things sanitary.

One of 200 Puretest preparations for health and hygiene. Every item the best that skill and care can produce.

Cheap Enough!
The flash of lightning that rips the sky from horizon to horizon looks beautiful—but, according to scientific calculations, is worth only about one dollar, in terms of modern central station service rates.

In a Way.

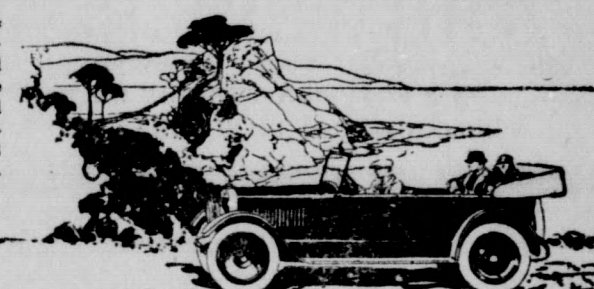

Missionary—"And do you know nothing whatever of religion?" Cannibal—"Well, we got a taste of it when the last missionary was here."

One Who Seldom Speaks.
He who seldom speaks, and with one well-timed word can strike dumb the loquacious, is a genius or a hero.—Lavater.

An Old Pear Tree.

A pear tree brought from England by Gov. John Endicott, of the Massachusetts Bay colony, in 1630, is still bearing fruit on the spot it was planted at Davenport, Mass.

The Del Monte Properties Company, Hotel Del Monte, Calif., use Zerolene oils and greases exclusively in their 23 pieces of automotive equipment.

At DEL MONTE service counts too

Equally important with the quality of Zerolene, which we believe to be the best oil made for the lubrication of the modern automobile, whether of eastern or western origin and irrespective of price, is the service offered by over 700 Standard Oil Company Service Stations and thousands of Zerolene dealers throughout the Pacific Coast states.

A recent letter from the Del Monte Properties Company, Del Monte, Calif., makes this point:

"We operate a fleet of twelve Winton cars in the guest passenger service in addition to quite a fleet of commercial type vehicles, ranging all the way from Fords to five-ton Packard trucks, all of which are lubricated with the Zerolene oils and greases supplied by your company.

"The uniformly prompt and courteous treatment which we have received in connection with this service is a credit to your organization and it is putting it mildly indeed to state that our experience both with your products and service has been highly satisfactory."

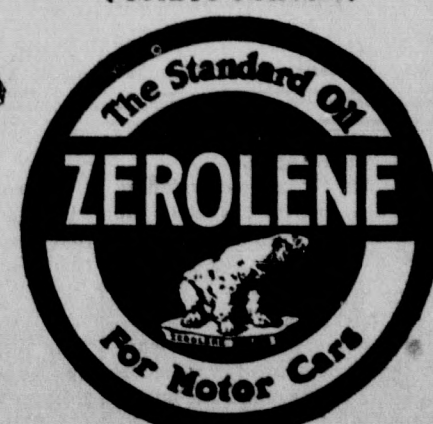

ZEROLENE F for FORDS

—the Standard Oil Company's new improved oil for Ford cars, "Feeds Those Oil-Starved Fords."

Big users don't pay tribute to the superstition that there is something mysteriously "better" about "eastern" oils just because they cost more — why should you? Insist on Zerolene, even if it does cost less.

STANDARD OIL COMPANY (CALIFORNIA)

This booklet reports independent service tests of Zerolene made by a number of large users. Ask any Standard Oil Company sales representative or Zerolene dealer for a copy.

ROPER Gas Ranges

with

Complete Oven Control

Put Yourself in Her Place

Your wife wants a Roper with Complete Oven Control. There would be one in your kitchen today, if you had to do the cooking, or manage the house. You would quickly realize that it would save you time—and money.

Your business is run in a modern way—don't handicap your wife by insisting that she cook on an old-fashioned gas range.

Just drop into the Gas office today and in five minutes we can show you that you are losing money if you insist on keeping the old gas and time waster. Only a small payment required and nine months to pay the balance.

Be sure to visit our Gas Appliance Exhibit.

 Public Servants Every Day in the Year

A Huge Topaz.
 A topaz, 10 by 17 inches, weighing about 100 pounds, has been sent to the Field museum, of Chicago, by a gem hunter in Brazil.

Quite So.
 If he finds his thoughts always wandering away in some sort of wool-gathering, he may be sure that he hasn't the business mind.

Difficult Situation.
 Control of thought cripples the intellect, and without control of thought, your mouth is in danger of betraying you.

Hardly Believable.
 No one would believe that there was once as much excitement about croquet as there is about mah jongg—but there was.

SIERRA MADRE NEWS

Published by
THE SIERRA MADRE PRESS, Incorporated
 Telephone Black 42
 GEORGE B. MORGRIDGE, Managing Editor

Entered as second class matter at the post office at Sierra Madre, Calif., under the act of March 3, 1879

JUST OPINIONS

Pung!

Maybe our senators have heard of mud packs for beauty and are throwing the muck around in an attempt to beautify each other. Why don't they turn their attention to something serious—like establishing a uniform code of rules for mah jongg? The settling of diplomatic difficulties in many a family or neighborhood circle would be a great contribution toward a world peace program.

Harmony

When Christian churches can forget their differences in a united presentation of the heart of the gospel, they will have gone a long way toward a showing of sincerity without which they cannot hope to convince outsiders their doctrine is sound. Next Sunday night the choir of the Church of the Ascension will furnish the music for the regular Congregational church service. People who sing together are in a good frame of mind to work together. It is a good sign.

Have you done your part toward the electric signs on the Foothill boulevard, to guide the traveller to Sierra Madre? Or are you trying to hide up here on the hillside so people cannot find you?

That Cemetery

Sierra Madre voters have decided they do not want a large cemetery in town. But they have a small one which will remain for all time—before the issue is forgotten why not arrange to make it respectable?

The local cemetery presents many difficulties to operation as a modern, well kept place. A large percentage of the lots or graves are owned by non-residents. Many of these will take no interest in the upkeep even of their own burial plots.

Three classes of people may reasonably be expected to take an active interest in a movement for reorganization on a sound basis: Stockholders in the present association; resident lot owners; citizens who opposed the Hanson enterprise with the argument that the matter of cemetery improvement could better be handled by other means. Who will take the initiative in calling a meeting to map out a workable program which will make the little cemetery a credit instead of a disgrace to the town?

More Than Many Sparrows

"What is man that Thou art mindful of him?" The astronomers tell us of something that looks like a star, but is in reality a pair of suns revolving about each other; so far away that an airplane travelling 200 miles an hour might reach it in thirty thousand million years. The temperature is said to average around 30,000 degrees Fahrenheit and if that sun should be visited by a rainstorm with drops as big as our earth, the drops would evaporate before reaching the surface. It is all a part of the same divine plan, arranged by the one who sendeth rain alike upon the just and the unjust, and clothes the lily, and regardeth the sparrow's fall. Forgetting this, the human mind is lost, crushed to insignificance by the sheer magnitude of things.

Reviewing the Game

One of the heart warming things that brighten life happened the other day when District Agent Fred Schwartz handed me a little book of fragments of the writings of Charles Heston Peirson, with a personal greeting from the author penned on the fly leaf. The book is entitled, "Go on With the Game," estimated by the author to contain about 1-1000th of one per cent of his writings during a newspaper career of more than 50 years. In mere variety of publication credit lines, of subject matter and of style it is an astonishing little book, or would be to anyone lacking personal acquaintance with the author. As head of the advertising and publicity department of the Southern California Edison Company. Mr. Peirson is only half-way outside the newspaper fold. His mellow style and deep human sympathy still find occasional expression in editorial utterances worthy of high rank. Miss Roberts of the Long Beach Telegram is responsible for the form of the publication, as a tribute to the lifelong friendship between her father, the late Frank C. Roberts, and Mr. Peirson.

La Golondrina Meets Approval of Play Goers

La Golondrina, John Steven McGroarty's California romance and companion piece to the Mission Play, started at the Old Mission theatre at San Gabriel last Sunday and is attracting large crowds daily. The new play is meeting with the wholehearted approval of the playgoing public of Southern California and is expected to prove a worthy sister play to the now famous Mission Play.

La Golondrina has the one thing the Mission Play lacked, a dramatic plot. Where the older play is pageant drama, the newer one is a romantic drama of the old California. It is further lightened by a fiesta scene similar to that which has proven

Where Leprosy Started.
 Leprosy had its origin in Central Africa and thence it spread to Asia. The hordes of the army of Darius brought it to Europe and it was taken to the Americas as an accompaniment of negro slavery, according to a writer in the London Quarterly Review.

Like All the Rest.
 A terrible tragedy is reported from Suburbia. It appears that a lady recently wrote to an evening paper to say that she, at least, had found the perfect husband. Unfortunately her letter was never published, as the gentleman in question forgot to post it.

so popular and so typically Californian in the Mission Play. The play continues all next week and will then be taken to San Francisco, where it will alternate with the Mission Play for several weeks.

Important to Mothers

IT is very important that baby's milk be fresh and pure. Any dysentery germs would make him sick and might prove fatal.

There is little use of sterilizing bottle and nipple if the milk itself gets stale. And that easily happens if it gets warm. It only takes a few minutes at a temperature of 50 degrees for bacteria to rapidly multiply in milk.

The safe thing is to always keep it cold—right up to the minute it is needed. Never let the ice get too low; it then melts too quickly and does not properly chill your food.

Sierra Madre Woman's Club

(By Club Correspondent)
An interested audience on Wednesday heard a most eloquent address on "Business and Brotherhood" by Captain Max Wardall, leader of the Pasadena Forum. The speaker advanced conclusions which showed profound study of world problems, and the belief that only through spiritualization of the individual would peace come to the world. Arraigning modern industrialism as responsible for the world war, and charging the nations with feverish commercial ambitions that plunged their people into great disaster, the speaker made a forceful plea for international co-operation.

Animated discussion followed with many questions from the floor. The president referred to the opening of the new Friday Morning club building as marking an epoch in the club world, and called upon Mrs. Osgood to speak of the occasion. Mrs. Osgood quoted the dedicatory words of Madam Severance, spoken when the old club house was opened. These words are graven on a tablet at the entrance of the magnificent new building, concluding with the sentence, "Nothing that is human shall be foreign to our interest and helpfulness."

Mrs. Ferris followed, expressing her admiration for the auditorium and wonder at the magnitude of the building, particularly the size and beauty of the dining room, and the elaborate equipment of the kitchen. At a special matinee on Wednesday, May 7, of "Romance," with Doris Keane, club women may enjoy the auditorium and assist the Friday Morning club, as the receipts are to be given to the club fund by the theater management, which has taken a long lease of the auditorium for the production of legitimate drama.

Garden Week was observed by the planting by Mrs. Osgood, assisted by Mrs. Fennel, of a Wistaria vine from the Fennel garden. This is the fourth vine to be planted in the club house grounds along the north frontage, one the gift of Miss Graham. Another vine given by Mrs. Fennel has been set at the southeast corner of the building.

Brief reports of the Glendale convention were given.

Mrs. Glenwood Jones was asked to prepare a statement of the coming Drama convention in Pasadena for the press.

Mr. Dennis Stoyall, president of the Chamber of Commerce, presented the need of flood control work as embodied in the County bond issue to be voted on May 6, and urged the members to study the descriptive folders, and to remember to vote.

The members were urged to attend the Men's Community club program on "The Coming Citizen," announced for last night, and to return to the sing to show their interest in the Music Week plans of the sing committee. A communication from Mrs. Steinberger was presented by Mrs. Cover which stated there was a need of more cars to transport the singers to the Hollywood bowl on Sunday, May 4. Send your offers in at once.

A motion was offered by Mrs. Ferris that the by-laws be printed and distributed. A committee, with Mrs. Ferris as chairman, was appointed to consider the matter.

Six new members were admitted, bringing the list up to 99.

Extra Meeting

Next Wednesday, April 30, a fifth Wednesday, there will be a business meeting of the club at 2:30. Reports of the by-law committee, the committee which is obtaining estimates on the cost of fencing the property, and a complete outline of the financial activities of the club and its obligations, will be offered for free discussion by the members. A list of subscribers to the Wistaria Fete advertising fund will be presented, and suggestions received as to means of paying the deficit.

Miss Hazel Bobbitt, a student of the U. S. C. College of Oratory, will read some entertaining selections.

The board will meet at 1:00 for luncheon.

Drama Notes

The regular Drama department meeting scheduled for last Monday was postponed until Monday, April 28, 2:00 p. m., at the Woman's club house.

Miss V. Cummin will review "The Way Things Happen," by Clemence Dayne, the popular author of Will Shakespeare.

The National convention of the Drama League of America will be held in Pasadena beginning May 27, and continuing one week. Headquarters, Maryland hotel. A very interesting, though tentative, program has been arranged and all day-time sessions will be free to all interested in the stage and drama.

Flood Control Needs Heavy County Vote

"Every registered voter in the rural districts of the county must vote favorably on the water conservation and flood control bonds May sixth if that measure is to carry."

That was the warning sounded this week by J. L. Matthews, of Covina, in charge of the flood control campaign and who also conducted the campaign of February, 1917, when \$4,500,000 was voted for this work.

"The issue of 1917 carried despite the fact that only eight per cent of the vote in the city of Los Angeles was favorable," Matthews declared. "We most certainly expect a much larger percentage in favor of the \$35,300,000 issue at this coming election, but the voters of agricultural districts must back the measure solidly if it is to carry."

Don't Depend on City Vote

"With both civic and labor organizations endorsing the issue and with a better understanding by the people generally of the vital needs in conservation, support of the city is hoped for this time." A few dry seasons have taught the commonwealth that some steps must be taken to conserve water for use when needed, and for this reason the Reagan plan for construction of dams and reservoirs will receive a greater support in Los Angeles city than the program of 1917. However, too much emphasis cannot be laid upon the fact that the country districts must support the measure wholeheartedly if it is to carry."

County Registrar Lyons points out that every registered voter is entitled to vote at this coming election and those who refused to state party affiliation can and are entitled to vote on county and municipal measures appearing on the ballot. Failure to state affiliation has deprived some of their opportunity of voting on the national issue but not on local matters.

The voters must not think that because only a majority and not a two-thirds vote is all that is needed to pass these bonds they can refrain from lending their individual support and vote."

Steer Requires More Grain.

In a series of studies made by the United States Department of Agriculture, it has been ascertained that it takes about six pounds of grain and six pounds of hay to produce one pound of beef. About five and a half pounds of corn will produce a pound of live pork.

PEPTONA

WILL HELP YOU

EFFICIENCY IS THE KEYNOTE TO SUCCESS

Efficiency depends greatly on bodily health. A run down, nervous, poorly nourished system may prevent better accomplishment.

PEPTONA, our best tonic, is made to aid in such conditions. It will help enrich the blood, is an aid in relieving tired, nervous, "worn-out" conditions.

It will act as an aid in convalescing from coughs, colds, bronchitis and other similar disorders, and in properly assimilating your food.

Take PEPTONA. You will feel increased vigor for your daily duties.

A picture with plenty of action and humor.
Also two COMEDIES. An evening of laughs.

Friday Evening Only—One Show, 7:30.

Chamber of Commerce Night—75 Cents

A LADY OF QUALITY

Virginia Valli and Milton Sills. All the world loves a lover; and love is the same today as of yore. A love story of Old England. True love as usual certainly did not run smoothly. A new Universal Jewel.

CLUB ADVISES CUTTING OUT AUTO JUNKETS

"Do no unnecessary traveling on foot or in auto until the hoof and mouth disease has been stamped out of California," is the admonition to all loyal citizens from the authorities in charge of the big job of eliminating this costly epidemic.

An appeal has been made by the government authorities to the Automobile club of Southern California to urge all motorists to cooperate in the campaign against the disease. Experts assert that 90 per cent of the infection is spread by human beings and automobiles. Hence, a responsibility rests on every one of the 600,000 automobile owners of Southern California to keep their machines

at home unless business compels their use.

Motor Pleasures Lessened

All of the mountain roads have been closed to travel, and at all county lines disinfecting stations have been established so that every day travel by motor is becoming more inconvenient. In some instances five to ten hours are required to cross county lines.

Authorities of Ventura and Inyo county particularly, are warning motorists to keep out. The state line on the Arizona border is closed to motorists from California.

The best way to end this situation, according to the authorities, is for every person to cooperate in the wide spread campaign to eliminate this disastrous epidemic.

NOTICE OF TRUSTEE'S SALE

Whereas, Thomas H. Berry and Elizabeth L. Berry, husband and wife, by deed of trust dated the 14th day of August, 1923, recorded August 22, 1923, in Book 2498, Page 278 of Official Records, in the office of the County Recorder of Los Angeles County, California, did grant and convey the premises therein and as hereinafter described to the Hellman Commercial Trust and Savings Bank, as Trustee, to secure among other things the payment of one promissory note for \$5,000.00, with interest thereon at the rate of seven (7) per cent per annum, payable quarterly, principal sum due six (6) months after date thereof, which note is in favor of Hellman Commercial Trust and Savings Bank.

Whereas, the said deed of trust provides that in case default shall be made in the payment of any of the sums of principal or interest when due, the owner and holder of said note may declare the whole sum of principal and interest thereon immediately due and payable and may require that the said Trustee shall sell the premises thereby granted, or such part thereof as shall be necessary to pay the obligation unpaid and secured by said deed of trust; and,

Whereas, default has been made in the payment of said promissory note, in that the installment of interest due November 14, 1923, was not paid when due nor has any part thereof been paid and all now remains due and unpaid.

Whereas, in accordance with the terms of Section 2924 of the Civil Code of the State of California, the said Hellman Commercial Trust and Savings Bank, being then the legal owner and holder of said note and deed of trust on January 11th, 1924, caused to be recorded in the office of the County Recorder of Los Angeles County, California, a notice of such default and of its election to cause the property described in said deed of trust to be sold in accordance with the provisions contained in said deed of trust to satisfy the obligation created by said note, which notice of default and election to sell was duly recorded in Book 3053, Page 19, Official Records, in the office of the County Recorder of Los Angeles County, California; and,

Whereas, the said Hellman Commercial Trust and Savings Bank by reason of default as aforesaid, has elected and declared that the sums unpaid and secured by said deed of trust be immediately due and payable and has demanded that the Trustee shall sell the premises granted by said deed of trust to accomplish the objects of the trust therein created.

Now, Therefore, notice is hereby given that the undersigned by virtue of the authority vested in it as Trustee by the said deed of trust will sell at public auction to the highest bidder for cash, in lawful money of the United States, on Monday, May 19th, 1924, at the hour of eleven o'clock, A. M., at the Broadway entrance of the County Court House, Los Angeles, California, the interest conveyed to it by the aforesaid deed of trust in and to the real property therein described situated in the City of Sierra Madre, and County of Los Angeles, California, and described as follows:

Lots One (1), Two (2), Three (3), Four (4), Five (5), Six (6), and Seven (7) in Block "B" of Andrews Subdivision of the West Half of Lot One (1) of the Sierra Madre Tract, as per map recorded in Book 16, page 13, Miscellaneous Records of said County.

To pay the amount due and unpaid upon said note, to-wit: The sum of Five Thousand Eighty-seven and 50-100 Dollars, (\$5087.50) and interest thereon at the rate of seven per cent per annum from November 14, 1923, to the date of sale, together with the expenses of said sale and also the costs, fee, charges and expenses of the trust created by said deed of trust, including compensation to the Trustee.

Terms of Sale: Cash, lawful money of the United States.

Dated April 17th, 1924.

MITCHELL IS NEW DIRECTOR OF ASSOCIATION

Owing to the resignation of Dean William Carson Shaw as local director of the Associated Chambers of Commerce of the San Gabriel Valley, Robert Mitchell has been chosen for the post by the Chamber of Commerce directors. Dean Shaw has given several years of valuable service to the position and feels that the pressure of other duties requires him to give it up. By reason of his wide acquaintance with public affairs and as a frequent attendant at the meetings the directors feel that Mr. Mitchell is peculiarly qualified to fill the place.

WORK RESUMED ON VOSBURG WELL EAST OF TEMPLE

The Vosburg oil well which is being drilled two miles east of Temple is again getting deeper into the earth, following a few days of delay while repairs were being made. The well is now nearing the 2,500 foot level and will be at the place where more oil is expected within a week or two, according to reports. This estimate is, of course, qualified with the phrase, barring unforeseen accidents. The drill is said to be piercing some unusually hard formations.

Forests mean health and wealth.
Help prevent forest fires.

CALIFORNIA LEADS IN CARELESSNESS

California, with a record of 2,240 forest fires that burned over 942,565 acres, was the worst fire state in the Union in 1923. Seventy per cent of these fires were man-caused and could have been prevented.

Our citizens, accustomed to the thrill of leadership, bow in shame when these facts are recorded.

Help Prevent Forest Fires

Our forests should be cherished for three reasons:

1. Their natural scenic beauty.
2. Their timber supply.
3. Their aid in water conservation.

Burned forests build no homes.

Leave a clean camp and a dead fire.

One tree will make a million matches one match may destroy a million trees.

Help Prevent Fires---It Pays

"Lady Assistant"

JOURNALISM

By L. Lansberg

There is no profession so much alluring to the non-initiate as that of a journalist. The young man on starting his much envied career feels more satisfied with his lot than the "Knight of the rueful countenance," the famous Don Quixote, when on leaving his cottage at dawn in search of adventures he dreamed of setting wrongs right, avenging innocent maidens, protecting the orphan and the widow and helping all in need and distress.

"I am a journalist!" What long procession of illusions does not this phrase carry before the mind's eye. A journalist! That means that neither science nor art nor politics nor anything in the world has henceforth any secret from him. It means that he has become the judge of everything that comes in his way; that there will be no ill acquired reputation, no artfully gained fame, no triumphant vice his versatile pen, wielded like a lance, is not going to scourge. The world shall marvel at the achievements of his pen in the exercise of the noblest of missions he entered upon, availing himself of every American citizen's right to follow any profession he pleases!

Who doubts that journalism is the best profession for an ambitious young man to embrace? The journalist sees everything, knows everything, enjoys everything. When a crime is committed the journalist is there to reveal in the sight of the blood-stained victim; when the legislative bodies meet he listens, in a front seat, to the wisdom issuing from the lips of the legislatures in discussing and determining upon the destiny of the nation. There is no funeral in which the reporter, with pad and pencil in hand, is not seen among the mourners; no wedding, no banquet, no festivity where he is not present, partaking of all the good things of the menu. He travels whenever he wants without cost on all the railroads and steamboats, or did until the anti-pass laws were put on the books; he has free admission to all theaters and places of amusement, occupying the best seat in the house. And what kind receptions he meets everywhere! The great statesman shakes hands with him and confides to him the most important state secrets; the big politician treats him with the finest Havana; the famous author is glad if he deigns to review his latest work; the prima donna receives him with sweet smile in her boudoir—for they all live and thrive owing to the tolerance of the press.

All this is sufficient to compensate an ambitious young man for any possible effort and study required in order to become a journalist. But journalism is the easiest thing in the world. All that is necessary is to know how to spell English correctly. No special knowledge is required in this profession. On the contrary, knowledge is rather an impediment to a modern journalist. For the art of journalism does not consist in the ability to write about things one knows, but in being able to write about things one does not know at all. And this art is mastered nowadays by every schoolgirl. All you have to do to display great erudition is to spice your articles with quotations from Shakespeare, Herbert Spencer, Spinoza, Marcus Aurelius, Plato, Nietzsche, etc., all found ready made in cheap books of reference, and your name will soon fly on the wings of fame and the newspapers will fight over your articles, paying you for them at the rate of a dollar a word, till at last you decide to accept the position of editor in chief of a prominent newspaper, with a salary of at least \$50,000 a year. This is quite an easy job; all you have to do is to give your advice as to how the country should be governed. What American citizen feels not competent to do so? After a few years you can retire from business, as owing to your salary, you have saved

enough to spend the rest of your life in ease and comfort.

This is the popular, Don Quixotic, idea of journalism. It is certainly beautiful, and its only fault is that it is not true. But we deem it our duty to give also the Sancho Pansa conception of the profession, which, however prosaic, pessimistic and disappointing, corresponds more with the reality. It is summed up in the few words, "hard work, little appreciation and even less pay." It shatters the lofty ideal of the novice to use his pen for the dissemination of truth and knowledge only. For the moment he becomes harnessed to a newspaper he sacrifices his individuality, his personal opinions and convictions, and must write, not what he thinks to be good and true, but what the interest of his paper or the party it represents dictates as such. There are, no doubt, some independent papers that have made truth their watchword and earnestly striven to be guided by it in their expression, but even these are sometimes compelled to conceal, if not to misrepresent, facts in order not to offend rooted prejudices of the public. If it is the hope of gaining name and fame that attracts you to journalism, you would better renounce this profession, as you are doomed to disappointment. For the journalist, from the youngest reporter up to the editor in chief of a newspaper, in his modesty and self-denial, must content himself with giving his best to the public without seeking notoriety, and therefore, as a rule, remains unknown. Who knows of the man behind the gun in battle? It is the general who is praised for the victory. And, similarly, nobody knows, or even cares to know, the name of the author of the best article; it is the newspaper that gets all the credit. And as regards the prospects of acquiring wealth with journalism, there are absolutely none whatever. True, there are some exceptional cases of journalists who have acquired great wealth, but they did so not by their writing as journalists, but as business men, as the owners of well-paying newspapers. And the average journalist has about the same chance to become the publisher of his own paper as has the average American citizen to become President of the United States.

Different Types of Men.

"You can't treat all men in the same way when they come to you with a bright suggestion," says an employer. "One type of man you must thank several times and possibly reward him for his thoughtfulness. He goes away delighted and tries to think up more good ideas. Another type would feel contempt for me if he told me something I didn't already know. I'm obliged to tell him that I have already been thinking of the very thing he suggests."

Don't Climb for Fun.

The Japanese do not climb mountains for the fun of the thing. When you find a Japanese making the ascent of Fuji, the sacred mountain, he is probably a pilgrim performing a pious duty, according to W. Weston, in the Geographical Magazine.

Largest Waves.

From a series of observations made of waves of the Atlantic, Pacific and Indian oceans by a French naval officer, it was found that the largest waves occurred in the Indian ocean, where thirty different waves averaged 29 feet, the largest being 37 feet.

Time for a Probe.

If one hasn't time to do something he very much desires, one should see if he isn't doing a lot of things that are not necessary.

Fifty-Fifty.

People who marry for money don't seem to get what they married for, and neither do all those who marry for love.

Must Do "Bearing."

Our nerves are out of order when we "can't bear" this or "can't bear" that. We're in this world to do a good deal of bearing.

331 West Central

Music Week Filled With Fine Things

Music Week, beginning Sunday, May 4, promises a variety of good things. The local observance of this national event is in the hands of a committee consisting of Mrs. F. P. Miller, Messrs. Howard Lieben and Jack Buchan. The first event will be Sierra Madre's participation in the great meeting of singing organizations in Hollywood Bowl, Sunday afternoon, May 4.

In regard to this event Mrs. Milton Steinberger says:

We want Sierra Madre Community Sing to deliver the goods at the Hollywood bowl on the afternoon of May 4, and to do this everybody must come to the last two rehearsals on our regular sing nights. We need more sopranos, so please come out, sopranos especially and every one generally.

Sierra Madre Community Sing will be asked to sing a selection alone. We must do ourselves proud or we had better not risk coming home.

Other Events

Tuesday evening, May 6th—It is hoped that many Sierra Madre music lovers will go to the Hollywood Community Sing in the High School auditorium on Highland avenue near Sunset boulevard. We will have seats reserved for us, but please do not use that accommodation as an excuse to go late. We should leave Sierra Madre by 6:45 allowing us to be seated at the opening of their evening. We will not be expected to sing as a separate body there.

Thursday evening, May 8th—Our own sing night. Surely every one read the splendid program which has been arranged for our people on this night, and we want every one to come out to enjoy it. It is our community sing night and there will not be a charge, the little bowl stands on its table unguarded, for whatever you wish to put into it.

Friday, May 9th—We of Sierra Madre will plan to go over to our neighboring town of Monrovia to hear their splendid Community orchestra, under Mr. Bayley's direction. This is a very worth-while organization, and we want to encourage them, especially with four of our townspeople associated with them, these being Miss Blumer, Miss Zubrinsky, Mr. James Hawks and Mr. Joe Clarkson.

Sunday afternoon, May 11th—In our own park at 2:30 a real community gathering of all the citizens, when we will sing all the dear old familiar songs under the leadership of Mr. Sullivan of Sierra Madre, inspired by Mrs. Murphy at the piano and Mrs. Glidden with her golden cornet. On this day the fine choir of the Episcopal church under the direction of Miss Frances Webster, and the Congregational choir under the direction of Mr. Sullivan, will be heard. The school children of the seventh and eighth grades are enthusiastically training under Miss Boland so they might claim a good share of the honors of the day. Mr. Robert Mitchell accepted the honorary chairmanship, and we will hear from him in a short talk on Citizenship and its relationship to music.

Last Tuesday night a number of the Community Sing met at the home of Mr. and Mrs. Griebenson and rehearsed several of the songs we are to sing with Alhambra. It was very much worth while and it is hoped that many more will come out this coming Tuesday evening at the home of Mr. and Mrs. Klunk when the different parts will be worked out in the same way. Yes, there are eats.

Sparks Chairman Board of Trustees: Mitchell Resigns

(Continued from Page One)

Sparks and Trustee Karicofe nominated Trustee Mitchell. The first ballot resulted in two votes for each. When the formal ballot was then taken, Trustee Sparks received three votes. Trustee Mitchell then moved to make the vote unanimous and Mr. Sparks was installed as chairman.

Trustee Mitchell then announced that as he felt that he was entitled to the courtesy of the chairmanship which he had held for six years he did not care to serve longer and would resign. Going over to the city clerk's desk, he started to write his resignation but before it was placed in the hands of the clerk the other members of the board adjourned the meeting.

The resignation of Trustee Mitchell ends one of the longest periods of service in the history of the city. He has served as trustee and chairman of the board since April, 1918. Only one other man has served longer. C. W. Jones served as chairman of the board from the incorporation of the city in 1907 until his resignation in 1914.

Mr. Mitchell has given generously of his time and energy to municipal business, taking the initiative in numerous important activities. While there have been a number of sharp controversies in that period, there have been no more than in most cities, and Mr. Mitchell has retained the good will of a large number of people, even including many who have opposed him at one time or another.

Mrs. Cecil Kellogg and Mrs. Ralph Stover entertained with a luncheon Wednesday, April 23, at the home of the latter, East Grand View. The affair was in honor of Miss Leila Kellogg whose engagement to Donald Hosford was revealed during the luncheon when tiny cards bearing their names were found attached to little bags of rice at each place. The centerpiece was a beautiful basket of springtime flowers of every color, with ribbons showering down to each guest, and with dainty little favors. At the guest of honor's place was suspended a beautiful diamond engagement ring. Covers were laid for fifteen guests, including friends from Sierra Madre and Pasadena. Miss Kellogg is the daughter of C. M. Kellogg of Sierra Madre and has resided here since childhood. Mr. Hosford is the younger son of Mr. and Mrs. R. B. Hosford, proprietors of Fern Lodge, and is engaged with them in the operation of that popular resort. Their romance extends back through high school days.

MISS BOBBITT TO READ FOR WOMAN'S CLUB

Miss Hazel Bobbitt, a sister of Dr. C. M. Bobbitt and a student of the University of Southern California College of Oratory, will give some entertaining readings at the special meeting of the Woman's club next Wednesday. This being a "fifth Wednesday" makes it an extra meeting. Important business to be transacted causes the president, Mrs. W. J. Lawless, to urge a large attendance.

Special attention is called to the lawn fete, rummage sale and dinner to be given in the beautiful garden of Mr. and Mrs. George Lehner, 550 West Central, on Saturday, May 31.

Help keep the mountains green—Be careful with fire.

A one-cent cigarette may start a \$10,000 forest fire. Put out that snipe.

Pasteurized MILK Is Safe Milk

EXPERIMENTS by Loeffler and Froesch, as well as recent experiments which have been made in Denmark and Germany, indicate that the infection is comparatively easy to destroy by heat or the usual antiseptics. Milk pasteurized at a temperature of 60 degrees C. for 20 minutes is safe so far as infection by foot-and-mouth disease is concerned.

Reprinted, February, 1924, from United States Department of Agriculture. Farmers' Bulletin 666, Washington, D. C., April 22, 1915. Contribution from the Bureau of Animal Industry, A. D. Melvin, Chief.

THRONE WILL OPEN A STORE FOR CHAFFEE

Manager John E. Throne, who has been in charge of the local Chaffee Grocery and market, left this week for Riverside, where he will open up and manage the latest addition to the chain of Chaffee groceries. During his stay here Mr. Throne has made many friends. He expresses keen regret at leaving, and appreciation for pleasant relations with Sierra Madre people.

The Sierra Madre store will be under management of Ove Olson, who has been manager of the Chaffee store at Bellflower. He took charge on Thursday.

Mr. and Mrs. John Lowe have returned from a fortnight's auto trip which included visits to their daughter, Mrs. Anderson, at Long Beach, and also stops at Elsinore and San Diego. They expect to leave soon for the north to spend the summer months.

FOR SALE—Lot, 60x117 close in. A bargain \$850. Fine corner lot 65x 135 best location \$2,000 easy terms. Geo. A. Oswald, 6 N. Baldwin Ave. c30
